			twice a year	183,00 €		

\*) If participating only once a year, please notify (mark), at which period, spring (at April/May) or autumn (at Oct./Nov.) the reference material are wished.

#### Scope of performance - specification

- ref.material (Base: frozen, preserved milk) with different levels of bacteria.
- detaillied analyses/statistics
  - precision (repeatability and reproducibility)
  - correctnes – z-score (difference to reference mean)
- calculation of the „uncertainty of measurement“ for the different methods
